Dedicated to the Faithful Officers
of
The Town of Amherst, New Hampshire

CARL FORREST PETERSON

Born in Amherst February 9, 1908

Died April 13, 1966

Served as a member of the Amherst Fire Department
and at the time of his death was Civil Defense Director.

ADMIRAL WILLIAM CECIL VOSE, U.S.N. (Ret)

Born in Fitchburg, Mass. March 19, 1896

Died December 31, 1966

Served as a Zoning Official, Lay Judge and Clerk of
Municipal Court until 1964 and at the time of his death
was one of the Commissioners of the Amherst Village
District.

The following prayer was written by Admiral Vose:

"Eternal Father, in your everlasting goodness we place our faith.
We bow in reverence before your will. We believe that your
leadership guides us in death as well as in life."

"In your wisdom, you have called a comrade to the life ever-
lasting. Now, therefore we pray you to comfort those who
sorrow. Touch their hearts with your healing power. Give them
to know that you hold us in undying love both now and here-
after. Grant us to live our lives that we may honor the memory
of this comrade and of our other comrades and loved ones who
have preceded us to your house."

"Help us to accept that life eternal lies only in your house and
that we who remain must await your call before we can say
to our departed, 'Comrade we meet again.' Amen."

TOWN WARRANT
State of New Hampshire

*To the Inhabitants of the Town of Amherst in the
County of Hillsborough in said State, qualified to
vote in Town Affairs:*

Polls open at 10:00 A.M. and Close at 7:00 P.M.

Voting on the first FOUR Articles will be by ballot
at the Polls.

You are hereby notified to meet at the Town Hall in
said Amherst on Tuesday the 14th day of March next,
at 8:00 of the clock in the afternoon, to act upon the
following subjects:

1. To choose all necessary Town Officers for the
ensuing year and the ensuing three years.

ARTICLE 2

To see if the Town will vote to amend the Zoning
Ordinance of the Town of Amherst as follows:

1. Amend Section 1 - 1 and Section 6 - 2 Paragraph D so
that said Sections shall read:

Section 1 - 1 Purpose and Authority

The zoning and building regulations and districts as set
down in this ordinance are for the purpose of promoting the
public health, morals safety, and general welfare of the Town
of Amherst as provided for by Chapter 31, Sections 60-89 and
Chapter 156, Sections 1-5, New Hampshire Revised Statutes
Annotated, 1955 as it may be amended.

Section 6 - 2 Permits

D. No application for a certificate required and this Ordi-
nance shall receive action by the Administrative Official unless
made in writing and accompanied by a sketch or plan of the
proposed building or sign and a list of specifications and pay-
ment of a fee in accordance with the following schedule, said

No chimney shall be built, erected, or altered below the roof having wood or other combustible materials within one inch of the chimney and shall be supported on foundations of masonry, concrete or other non-combustible material. The throat of such chimney shall be constructed of clay or tile brick. Prefabricated or factory-built chimneys that are approved as a result of tests and listing by a nationally recognized testing laboratory shall be installed in accordance with the conditions of the approval. An outside chimney shall have at least 4" of masonry between the lining and the abutting walls to which it is attached. Each source of combustion shall have its own separate flue.

b. No smoke pipes shall be installed or erected so as to be within twelve (12) inches of any combustible floor, ceiling, wall or partition, unless amply protected with non-combustible material. No smoke pipe shall be installed or erected which passes into or through partitions or walls of combustible material, except when guarded by a double collar of metal with air space of at least six (6) inches, or by at least six (6) inches of brick or other non-combustible material between the pipe and the combustible material.

c. Fireplaces shall have hearths of brick, stone, tile or other approved non-combustible material supported on a fireproof slab. Such hearths shall extend at least 16 inches outside of the face of the fireplace and not less than 8 inches beyond each side of the face of the fireplace opening. The combined thickness of hearth and supporting construction shall not be less than 6 inches at any point.

5. Electrical Wiring: All electrical wiring shall conform with approved methods and practices for safety to life and property. Compliance with the National Electric Code shall be the prima facie evidence of such approved methods and practices.

6. Sewerage: All dwellings and all commercial, public or industrial buildings shall be connected to a private sewage disposal system, construction of which shall comply with the minimum requirements for individual sewerage disposal systems

prescribed by the Federal Housing Administration. If a public sewerage system exists on the road or street adjacent to the property it shall be mandatory that all new construction tie in with such system.

7. Exceptions: Minor alterations, repairs and general up-keep of existing buildings together with small portable buildings shall be exempt from the provisions of this Ordinance. Such exemptions shall not include any alteration which changes the exterior profile of the buildings or increases the living-space of the buildings.

B. On all new buildings, construction must be at least 75% complete before occupied as a dwelling, as determined by the Administrative Official with reference to the plan or sketch approved under the provisions of Section 6 - 2 Paragraph D.

C. No certificate for a new dwelling building shall be issued unless it contains at least 720 square feet of first floor living area.

NOTE: The Ballot question on this article will read as follows:

Art. 2. "Do you favor an amendment to the Zoning Ordinance of the Town of Amherst to incorporate building regulations as set forth in this Article?"

Yes No

ARTICLE NO. 3

To see if the Town will vote to amend Section 9 - 1 of the Zoning Ordinance of the Town of Amherst so that the definition of the words "Home Occupation" shall read as follows:

Home Occupation: Any use conducted entirely inside a dwelling unit or accessory building which use is incidental to the use of the dwelling for residential purposes and that does not change its residential character. This home occupation shall not occupy more than 10% of the floor area of the dwelling unit or units. There shall be no

emission of dust, fumes, smoke, noise or vibration across the lot line. Such occupation shall not employ more than two persons not of the family.

NOTE: The ballot question on this article will read as follows:

Art. 3. "Do you favor an amendment to the Zoning Ordinance of the Town of Amherst to allow the employment of not more than 2 persons not of the family in a home occupation as referred to in this article?"

Yes No

ARTICLE NO. 4

To see if the Town will vote to amend Section 4 - 2, 4 - 3 Paragraph B, 4 - 5 Paragraph B and 4 - 7 Paragraph B of the Zoning Ordinance of the Town of Amherst so that said Sections shall read as follows:

Section 4 - 2 Lots of Record

Where a lot in separate ownership on or prior to April 12, 1960 does not conform to the area and width requirements of the zone in which it is located, such lot may be occupied by any use permitted in that zone provided it conforms to the front, side and rear yard requirements.

Any lot of record in the Residence, Rural or Transition districts duly recorded between April 12, 1960 and March 14, 1967 may be occupied by any use permitted in such districts provided it contains 30,000 or more square feet and has a frontage of not less than 150 feet on the principal route of access to the lot.

Section 4 - 3 Paragraph B

1. The minimum lot area for any permitted use shall be one and one-half acres.
2. Each lot shall have a minimum frontage of 200 feet on the principal route of access to the lot.

Section 4 - 5 Paragraph B

1. The minimum lot area for any permitted use shall be one and one-half acres.

2. Each lot shall have a minimum frontage of 200 feet on the principal route of access to the lot.

Section 4 - 7 Paragraph B

1. The minimum lot area for any permitted use shall be one and one-half acres.

2. Each lot shall have a minimum frontage of 200 feet on the principal route of access to the lot.

NOTE: The Ballot question on this article will read as follows:

Art. 4. "Do you favor an amendment to the Zoning Ordinance of the Town of Amherst so that in the Residence, Rural and Transition Districts the minimum lot area shall be 1½ acres and the minimum frontage on the principal route of access to be 200 feet, as set forth in this Article?"

Yes

No

5. To see if the Town will vote to give the Selectmen and the Town Treasurer authority to borrow money in anticipation of Taxes.

6. To raise such sums of money as may be necessary to defray Town charges for the ensuing year and make appropriations for the same.

7. To see if the Town will vote to purchase a new Austin Western Model S 100 Road Grader and to raise and appropriate the monies as follows to finance the same:

Net price of the Grader after trade-in allowance	\$17,245 00
To be withdrawn from Grader Fund	8,259 00

Balance to be raised and appropriated under this Article, and financed at the discretion of the Selectmen	\$ 8,986 00
Or take action relative thereto.	

8. To see if the Town will vote to raise and appropriate a sum not to exceed \$950.00 for the purchase of a Trojan 50-inch rotary lawn mower, and that the old mower purchased in 1950 be sold and the monies realized from the sale be credited to this Article, or take action relative thereto.

9. To see if the Town will vote to raise and appropriate the sum of \$2700.00 to blacktop the Town Road known as Old Coach Lane, a distance of 2700 feet or take action relative thereto.

10. To see if the Town will vote to raise and appropriate the sum of \$800.00 to blacktop the Town Road known as Truell Road a distance of 800 feet or take action relative thereto.

11. To see if the Town will vote to raise and appropriate the sum of \$1000.00 to continue the plan of road improvement started in 1956. The monies to be spent on the West Side of Walnut Hill during 1967.

12. To see if the Town will vote to raise and appropriate the sum of \$615.00 to purchase a Model 104 Remington Rand printing calculator for the Selectmen's Office or take action relative thereto.

13. To see if the Town will vote to raise and appropriate the sum of \$750 to make adjustments in the basic salaries of the following:

The Town Clerk from \$200 to \$400, an increase of \$200.

The Town Auditors from \$50 to \$75 each, an increase of \$50.

The Tax Collector from \$1,000 to \$1,500, an increase of \$500.

Or take action relative thereto.

14. To see if the Town will vote to change the name of Bloody Brook Road to Hidden Brook Road, or take action relative thereto. (By Petition)

15. To transact any other business that may legally come before this meeting.

Given under our hands and seal this 24th day of February, in the year of our Lord nineteen hundred and sixty-seven.

DEWEY W. SMITH,
HERMON W. ANDERSON,
J. MERRILL HINES,
Selectmen of Amherst

A true copy attest:

---	--	-------------

Notice to Owners or Keepers of Dogs – Chapter 466:1

Every owner or keeper of a dog **THREE MONTHS** old or over shall annually on or before 30th day of April, cause it to be registered, numbered, described and licensed for one year from the first day of May, in the office of the clerk of the town wherein said dog is kept, and shall cause it to wear around its neck a collar distinctly marked with a registered number.

Male or spayed dogs \$2.00; female dogs \$5.00.
 \$1.00 penalty if not paid before June 1st.

Report lost tags to Town Clerk for replacement.

Be sure to have tag on dog when away from premises.

Police Department would appreciate a little more cooperation.

Kennel licenses priced according to number of dogs.

CATHERINE A. KRUGER,
 Town Clerk

TAX COLLECTOR'S REPORT

REPORT OF HIGHWAY AGENT

The following is a summarized report of this department's activities during the past year.

Winter Maintenance \$20,126.16

The winter maintenance program covers all your highway department work from December first to the middle of March. All road clearing due to snow and ice storms is charged to this account. We have approximately 76.5 miles of road to care for with five hired trucks with plows and the grader. All black roads are now included in the salting routes. Special attention is given all school bus routes and areas where children are required to be in the streets going to school. A power sander is used on gravel roads during the winter months when necessary.

During the winter we also spend a great deal of time cutting brush and large trees and are able to burn this brush wherever this activity is done, thereby eliminating the cost of transporting brush to the dump area. Some of the sections of town where this work was done in 1966 include Christian Hill road, the Lake road, Mont Vernon road, Stockwell road, Chestnut Hill road, and Sterns road.

Again five carloads of salt were used and a savings of almost \$3000.00 was realized over our old method (bag salt). Total savings to date resulting from the use of our salt bay at the town barn is \$12,700.00. I mention this because the total cost of the new town barn was \$12,000.00

A breakdown of winter maintenance expenses shows the following: salt, sanding and plowing — \$15,068.36, supplies and repairs — \$1,635.37, general maintenance (cutting trees, etc.) — \$3,422.43.

Summer Maintenance \$10,098.80

All general maintenance from about the middle of

March to December first is covered under this account. Included is grading and the use of the York Rake on forty gravel roads several times, cutting banks and ditches, spot graveling, the maintenance and replacing of culverts, setting posts and signs. Also maintenance of shoulders throughout the black road system and the machine and hand cutting of brush in the summer.

Under culvert maintenance many hours were spent cleaning out culverts, cleaning drainage ditches, the extension of culverts, replacing stone culverts and marking culverts.

Banks and ditches were cut and shoulders extended in several areas including the Horace Greeley road, Thornton's Ferry road No. 2, County road, Sterns road, Boston Post road, Pond Parish road, and Dodge road. Gravel was applied to several areas — The Brook road, Grater road, and Pond Parish road.

The summer maintenance breakdown is as follows: General maintenance — \$6,171.31, culverts — \$845.07, brush — \$1,413.74, gravel — \$1,668.68.

Oiling \$14,721.57

Under this program approximately 19.1 miles of road were surface treated. Those treated were the New Boston road, Old Mont Vernon road, Boston Post road, north, Mont Vernon road, Broadway at Baboosic Lake, Milford street, Front street, Hillside avenue, Clark avenue, Norton street, Washer Cove road, West street, Church street, Foundry street, Middle street, Court House road, Cross street, Christian Hill road, Eaton road, Green road, Pinnacle road, Miles road, Mack Hill (upper end), Austin road, Brook road, North street, Up-ham road, Old Milford road, Bloody Brook road, Brimstone Hill road, North Meadow road, Juniper Lane, part of Boston Post road south and the Lake road.

The cost of patching all black roads (48.6 miles) and

sweeping all roads to be oiled is covered under the oiling appropriation. Juniper Lane was mixed and placed and the town was reimbursed in full by the developer for this work.

A program of applying crankcase oil (8000 gal.) to gravel roads where dust is a problem has been accomplished under this account.

Oiling account breakdown: patching and mixing of new roads \$4,634.92, reoiling and crankcase oil \$10,086.65.

Town Road Aid \$12,067.25

Town Road Aid is a program started in 1947 by the State to help small towns improve their roads. Money for this account is based on a 15% town cost — 85% state cost. Supervision is done by the Road Agent and the State Highway Department.

Under this account money was spent to continue the four year program started in 1963.

This past year we started a long range rebuilding program of our older black roads. Christian Hill road from Hendrix's to Larner's was completely rebuilt in 1966. In 1967 we hope to do a section of Walnut Hill from the junction of the Old Manchester road to the junction of Pinnacle road. Work will be continued on the Mack Hill road above the Lyons' house, and on the Brook road, Sterns road, Upham road, and Austin road.

Dump \$1,057.20

The money under this account was spent to maintain the town dump. It was necessary to cover the dumping area with new gravel several times during the year at a cost of \$330.00. We also have started a rat control program at the request of the State Board of Health. This program has cost \$180.00 to date. The dump custodian was paid \$468.00 for his work in 1966. Other labor costs totaled \$79.20.

Cemeteries \$4,146.61

Money for this account was spent to maintain the four cemeteries: Meadowview, the old cemetery by the Town Hall, Cricket Corner cemetery and the Chestnut Hill cemetery.

Some of the work accomplished this year, other than regular maintenance of all cemeteries, was rebuilding eighteen lots, resetting curbs on eight lots, grading depressions on forty-two lots, placing 350 granite cornerstones in the new area at Meadowview Cemetery, rebuilding the stone wall at the Town Hall cemetery, lowering cornerstones and cutting trees at the Cricket Corner cemetery, removing trees and bushes from six lots and then rebuilding the lots. The interior of the tool house was painted. One lawn mower and an electric trimmer were purchased at a cost of \$124.00.

There were twenty burials in Meadowview and one in Cricket Corner in 1966.

Parks and Playgrounds \$788.10

Money for this account is spent to maintain eight town commons and the Spalding Playground. This work consists of raking and picking up leaves, mowing and trimming grass, care of park fence and the constant picking up of papers, etc. from the lawns.

Extra work this year consisted of hot topping both entrances to Spalding Playground, replacing of culvert pipe and sidewalk near the library and four loads of loam were spread on the common by the Brick School.

Article No. 4 Road Improvement \$991.86

Money from this account was used to start preliminary work on the rebuilding of part of Christian Hill road. In 1967 I plan to use this money to start a rebuilding project on Walnut Hill.

Article No. 6 \$6,486.85

Money from this article was spent to apply fine gravel and blacktop Wilkins' Road for a distance of 1600 feet.

This year as in 1964 the income from grader rentals did not cover the repair costs and after a thorough inspection of the condition of our grader which is ten years old, it was estimated that repairs could amount to over \$2500.00 in 1967. Therefore, there is an article in the warrant to purchase a new grader. A town the size of Amherst must have one piece of heavy equipment for summer maintenance and snow removal. A grader seems to best fit these needs. Our present machine is used about forty-one weeks of each year and as the town grows the amount of work will increase.

In closing, I would like to thank the taxpayers of Amherst for their support of the department's programs. Comments and suggestions on how your Highway Department can better serve you are welcomed.

Respectfully submitted,

RICHARD G. CROCKER
Highway Agent

AMHERST POLICE DEPARTMENT

In 1966, police activities have surpassed those of recent years. This is not wholly due to the increase in population, but generally from the results of additional automobiles on the roads, and an increase of persons having driving licenses. Many tourists visit our town yearly, and to many, it brings back memories of a similar town they lived in or visited elsewhere with the same uniqueness. We all certainly agree that "Amherst is a lovely place to live in."

Listed below are the activities of 1966 which are on file:

Abandoned cars	16
Accidents	62
Accidental death	1
Air rifles	6
Animal shot	5
Assault and battery	10
Assistance for road block	3
Automobile on fire	3
A. W. O. L.	2
Bad Checks	5
Bicycle accidents	2
Bomb scare	1
Breaking and entering	44
Calls on miscellaneous animals	20
Child assistance	2
Court	41
Disturbance calls	162
Dog complaints	78
Embezzlement	1
Fire Department traffic assistance	39
Fireworks	12
Highway assistance	9
Family trouble	18
Hit and run	5
House checks (people away)	31

Juvenile court	1
Lost registration plates	2
Missing persons	10
Out of town police calls on residents	59
Plane crash	1
Peeping toms and prowlers	11
Pedestrians hit by cars	2
Radar set ups	3
Stolen cars	15
Stolen property	31
Suicide	1
Superior court	1
Teenagers annoyed	11
Threat on life	6
Town police meeting	1
Traffic warnings	74
Unlocked doors	3
Vandalism	39

At the present time, the dog complaints have not leveled off, and the town has over 500 licensed dogs. The leash law in nearby towns has proved to be sufficient, but here the residents let their dog loose because the neighbor's dog is on the loose. The police department will now take action and we will not issue warnings to those who have several already.

The teenage problem is one that will be improved on only if the parents work along with the police to maintain respect and to keep their children out of trouble. Some parents are resentful of being contacted by the police concerning their children, but it is the duty of this department to do this whenever it is necessary.

Intoxicating beverages is a problem in all towns and cities, and this, of course, results in more accidents.

I wish to thank those surrounding towns who have helped in my work, which are: Milford, Wilton, Merrimack, Hollis, and Nashua.

DONALD BOURDON, Chief of Police

AMHERST FIRE DEPARTMENT REPORT

The following is a summarized report of the department's activities and expenditures during the past year.

1. Salaries: \$1,525.00 — forty men at \$25.00 per year. This is payment for the men attending twelve regular meetings and at least twelve practice sessions with their engine companies. One Fire Chief at \$200.00; two Assistants at \$100.00 each; one radioman at \$25.00, and one janitor at \$125.00.

2. Fires: \$2,806.21. Your fire department responded to sixty-two calls during 1966 as compared to sixty-one in 1965 and eighty-two in 1964. The types of calls were:

Electrical	4
Grass	9
Buildings	5
Car	5
Chimney	5
Dump	9
Trailers	2
Miscellaneous	7

We were called out of town for Mutual Aid 16 times and received mutual aid 13 times.

Engine One responded to 43 calls.

Engine Two responded to 48 calls.

Engine Three responded to 36 calls.

3. Hose: \$800.00. The department purchased 200 feet 1½-in. 100% dacron hose and 500 feet 1½-in. dacron filler hose. These purchases are a result of a hose replacement program started in 1962 and will continue each year.

4. Water Holes: \$303.36. Money under this ac-

count was used to purchase pipe and install two dry hydrants; one at Dream Lake on the Baboosic Lake Rd. and one at Stephen Scott's on Thornton's Ferry Rd. No. 2. In 1967 it is hoped that two more can be installed; one at Cricket Corner and one at Baboosic Lake.

5. Supplies and Equipment: \$541.73. Under this account we purchased miscellaneous items to run the fire station and the following equipment: two hand lights, one 2½-in. clapper valve, two lengths of hand suction hose, one 45-degree suction adapter. Also five coats, four pairs of boots and four helmets were purchased; some being paid for by the town and the balance from monies the men raised through the December raffle.

6. Fire Alarm: \$1,229.01. Regular maintenance of the fire alarm system was carried out in 1966. The alarm was tested once a week during the year. The pipe to the fire horns was replaced because of a rust problem with regular iron pipe and several fire alarm boxes had to be rebuilt.

In closing this report we would like to express our thanks to the officers and members of the three engine companies for their time and effort put forth toward accomplishing the work of the department. We would also like to express our thanks to former members Carl Merrill, Curtis Worthen and Charles Reynolds for their many years of devoted service to the Amherst Fire Department.

Respectfully submitted,

CHARLES DUVAL, Chief
RICHARD G. CROCKER,
First Assistant
JOHN HANLON,
Second Assistant

Report of the Forest Fire Warden and District Chief

Fire records are made by people — those who cause fires and those who control them. Your forest fire warden, deputy wardens, fire chief and firemen have, in spite of a prolonged drought, made one of the best fire control records in recent years. Despite a very dry spring, we in New Hampshire working together, have substantially reduced our fire incidence (885 in 1965 to 595 in 1966).

This enviable record is largely due to two factors:

1. A closely coordinated and integrated state-town organization jointly carrying out programs of forest fire prevention, training and suppression with dedicated personnel.

2. Your appreciation of our forest fire control program and your individual effort in practicing fire prevention.

Statistics show, however, there is room for improvement. Major problems are still with us; (1) the careless disposal of cigarettes; (2) the householder's carelessness in burning rubbish; (3) the failure of woodlot owners and contractors to completely extinguish their brush burning fires; (4) failure to extinguish camp fires; (5) unsupervised children playing with matches.

New Hampshire has 4,339,000 acres of woodland to be protected. In 1966 we experienced 595 forest fires on this area and restricted acreage burned to 395 acres — a fine testimonial to the efficiency and dedication of the men who make up our forest fire control organization.

1. If you must burn you will need a permit. Permits are not issued between 9:00 a.m. and 5:00 p.m. except on rainy days. Permits are not needed when the ground is covered with snow. To minimize risk the

best way to dispose of rubbish is at your authorized town or municipal dumping area.

2. Be sure all discarded smoking material is out.
3. Don't leave a live camp or cooking fire.
4. Most important — instruct your children that matches are not play things.

TRULY — ONLY YOU CAN PREVENT
FOREST FIRES

CHARLES DUVAL, Forest Fire Warden

REPORT OF TRUST FUNDS

There follows a Report of the Trust Funds of the Town of Amherst, New Hampshire as at December 31, 1966.

The total investments, both principal and income, earned an average of 4.95% on invested cost at the beginning of the year. Of this total average, the Mutual Fund Investments earned 5.48% and Savings Bank Investments earned 4.67%.

The market value of Mutual Fund Investments, both principal and income, was \$90,255.64 at the year end which is \$36,315.38 more than invested cost.

Based on market values of principal investments at the end of the year, which totaled \$158,067.58 exclusive of the Grader Fund, 53% was invested in Mutual Funds and 47% in Savings Bank Accounts.

A detailed statement of the investments and related income follows.

TREE COMMITTEE REPORT

Although the Dutch Elm disease attacked about the same number of trees as in previous years, it is noteworthy that nearly all such trees were near or beyond the perimeter of the village. We believe that the systematic Dormant and Cover Sprays each Spring, with constant pruning of dead wood for fifteen years is a material factor in this decrease.

Replanting continues as a key function — both for retaining Amherst as an attractive colonial town, and for maintaining its ground water level. Trees and shrubs set out over the past decade are now important assets for beauty and shade.

We urge that all property owners continue their private spraying and removal of condemned trees in conjunction with the Town program to obtain the maximum community-wide results.

REPORT OF THE ADMINISTRATIVE OFFICIAL

During the past year a total of 134 permits have been received and processed and can be tabulated as follows:

New Private Dwellings	63
Additions and Alterations	22
Parking Garages	5
Signs	17
Utility Out-buildings	6
Trailers	4
Non-residential Structures	2
Miscellaneous	15

Of these, nine were either denied or referred to the Board of Adjustment.

The estimated cost recorded on the applications are as follows:

New Buildings	\$966,800
Additions and Alterations	61,900
Garages	2,200
Non-residential	6,000

CHESTER McGRATH,
Zoning Administrator

REPORT OF BOARD OF ADJUSTMENT FOR YEAR 1966

December 31, 1966

This Board held six regular and two special meetings during the year in addition to several informal conferences. Two vacancies among the members developed in November. Mr. Adam Young moved out of town and Mr. Kenneth W. Spalding, Jr. was elected a Supervisor of Checklists making him no longer eligible to serve on this Board. They were replaced by Mr. Jack H. Lindabury and Mr. Paul F. Antonelli who were appointed by the Moderator after consultation with the Board of Selectmen.

Eight requests for variances and one for a special exception were acted upon. In addition two requests for variances were withdrawn by the applicants after consultation with members of the Board and after making changes in the original plans so that variances were no longer necessary. All requests for variances and the special exception were properly posed and published in The Milford Cabinet. All known abutters were mailed copies of the notices. All subject sites were visited by one or more members of the Board and pictures were taken where deemed useful.

Fred C. Thompson and Greta S. Thompson withdrew a request for a variance after increasing lot frontage to zoning requirements.

André E. Cadorette, doing business as "André Mobile Homes" requested a variance in order to add ten additional mobile homes to the forty granted by variance of September 9, 1963. Applicant failed to state to which section of the Ordinance he desired a variance. In addition Board had no power to act in view of amendment to Zoning Ordinance voted by Town in March 1964. (Article III, Section 3-7). Mrs. Cadorette representing applicant admitted that more

than forty mobile homes were already in use on the premises.

Rodney and Rena Bowes requested a variance to build a house on a lot having less than required frontage; granted subject to restrictions.

Moulton & Sons, Inc. requested variance to increase size of store; granted subject to restrictions.

Mr. Robert Douglas requested variance to erect a garage too close to highway but changed proposed location and withdrew request.

Mr. Joseph Cassarino requested variance in order to sell and display trailers and sectional homes; granted subject to restrictions.

Mrs. Carol H. Foster requested two variances in order to erect two advertising signs; one was granted subject to restrictions while the other was denied.

Mrs. Carol H. Foster requested a special exception in order to locate a real estate office in a rural district; granted.

Henry and Rita Taillon requested a variance in order to erect a cottage on an undersized lot at Baboosic Lake. Inasmuch as it was planned to divide a certain parcel of land into several lots the request was referred to the Planning Board for decision.

The Board requested the Selectmen to procure for it a written opinion from the Town Counsel in respect to the validity of certain provisions in the Zoning Ordinance requiring permission of abutters before granting a variance. Apparently such an opinion was requested and obtained but by year end a copy had not been given to this Board.

In carrying out its duties this Board noted sections of the Zoning Ordinance where clarification is needed in order to maintain the spirit and intent of the citizens who voted in favor of the Ordinance and its amendments. Consequently this Board will make recommendations through the Selectmen to the Planning

Board to place Articles in the Town Warrant at the next Town Meeting amending the Zoning Ordinance so that they may be submitted to the voters for adoption if desired.

1. A limit on the number of off-premises signs that may be displayed.

2. Restrictions on expansion of non-conforming land use.

3. Removal of all requirements on the Ordinance respecting approval of abutters as a condition for granting a variance.

This Board is somewhat dismayed at the number of violations to the terms of the Zoning Ordinance that seem to exist in the Town but under the terms of the Ordinance it has no power of enforcement.

BOARD OF ADJUSTMENT

Richard H. Thurston, chairman
Clark C. Stewart, Vice Chairman
Howard F. Russell, Secretary
Jack H. Lindabury
Paul F. Antonelli

ANNUAL REPORT OF THE TRUSTEES OF THE AMHERST TOWN LIBRARY

(In compliance with Revised Statutes Annotated 202-A:12.)

Financial Report — The report of the treasurer is appended.

Building and Grounds — The year 1966 brought many changes at the Amherst Town Library. Outside work included a coat of paint and a new sign. Inside, long-awaited drapes have been purchased, and rugs at the front entrance and between the stacks, donated through the generosity of Mrs. Anna W. Mosher, serve to improve appearance and reduce the noise level. The basement room has been painted, and a new incinerator and lighting have been installed there. New files, designed to simplify our librarian's work, were also purchased. A Friends of the Library group has been formally organized, with Mrs. David Ramsay serving as chairman. Through the volunteer efforts of the Friends, a weekly Story Hour for four to seven year olds under the chairmanship of Mrs. Ronald Berlack, a bulletin board arranged by Mrs. Erik Brown, and plants and flower arrangements have been provided. The Jennifer Carlsmith Memorial Fund is making possible the installation of a children's table and chairs and the expansion of the children's book section, both to be completed this year.

The Book Selection Committee, composed of Mrs. Robert Sondrol, Mrs. David Ramsay, Mrs. Robert Wiliston, Mrs. Prentice Shethar, Mr. John Duff, Mr. Robert Lown and Mrs. Eliot Ware, has done much to broaden the scope of our book selection through the procurement of more than 800 new books.

Through the generosity of the Milford Cabinet and the efforts of Mrs. Arnold Wight and Mrs. Robert Wiliston, a column, "A View from the Library," brings weekly news about the library to Amherst readers.

This past year a library policy has been written up by the trustees, also a book selection policy, as a guideline for maintaining our library.

The trustees are indebted to the many volunteers who donated time and effort for our painting projects, sorting books in the stacks, and keeping up the grounds. We also wish to express our appreciation and thanks to the donors of gifts and books as listed in the librarian's report.

KATHLEEN WARE, Chairman
FRANCES COAN
JEAN CHASE

LIBRARIAN'S REPORT

This report is presented to you as citizens so that you may know how and to what degree your library has become a very important part of our community.

With the addition of new rugs, draperies and a record rack the library has taken on an entirely new look.

Due to the growth of the town and the increase in circulation, it was decided that the library be open three added hours. This makes a total of fifteen hours a week. We are open a part of every day except Sunday.

HOURS OPEN

Morning

Saturdays only, 10 a.m. to noon

Afternoon

Monday, Wednesday, Friday, 2 p.m. to 5 p.m.

Evening

Tuesday and Thursday, 7 p.m. to 9 p.m.

These hours have proved to be convenient for the residents of Amherst and will continue in 1967.

Circulation Figures for 1966

Adult	9,941
Juvenile	11,053

Grand Total	20,994
1965 Grand Total	19,851

There were 875 books added to our collection, of which 120 were presented as gifts. To the anonymous giver of 89 books we extend our sincere appreciation.

Our record collection, which at this time numbers 180, is an increasing source of pleasure to everyone. These are on loan for a two-week period. Circulation of records for the year was 165.

We gratefully acknowledge gifts of books, money and records from the following people:

Mrs. Anna Mosher, John Duff, Jr., Mrs. Norwin Bean, Mrs. Maurice Gagnon, Mrs. Barbara Wilson, Arthur Bills, Mrs. J. H. McFadden, the Warren family, Mrs. Roger Clemons, Mr. and Mrs. Philip B. Holmes, Mrs. Eliot Ware, Mr. and Mrs. Prescott Coan, C. S. Buchanan, Miss Bertha Rogers, Mrs. C. Clark Stewart, Karle Rich, Mrs. Gilbert Betts, League of Women Voters, John Seamans, the 4-H Club of Amherst, books in memory of Jennifer Carlsmith, Mrs. William C. Vose, Estate of Honora Spalding, Mr. and Mrs. John Merri- man, John Duff family, and the Vernon Gray family, Columbia Records and New Hampshire State Library bonus books.

We are very grateful to the Friends of the Library. This is a group newly formed this year. Their main function is to make the library more attractive, in which they have been very successful. Lucy Ramsay is chairman, and Emmeline Brown has inspired interest and humor with her bulletin board.

The story hour, a new venture of the library, was begun in September. This has proved very successful and is most enjoyable to the children. Barbara Berlack is the organizer of this group, and we wish to extend our appreciation to her and her friends who have helped in this new undertaking.

Our thanks go to Phyllis Tagg and Jean Merriman for the many hours they have volunteered to the library, and to Marion Williston for her very amusing "A View from the Library" column in the Milford Cabinet. Special mention goes to Bill Leatherman, who, in work-

ing for his Eagle Scout badge, has worked long and hard at the many tasks we have asked him to do. We also thank Jean Chase and Rachel McDowell for their help during the summer, and much credit is due to the Saturday morning volunteer help, which has added immeasurably to the overall activity of the library.

I wish to extend my gratitude and appreciation also to the members of the book selection committee, namely, Kathleen Ware, Lucy Ramsay, John Duff, Helen Sondrol, Robert Lown, Marion Williston and Janice Shethar. Today it is a very difficult and challenging task to anticipate the wants and needs of such a diversified and expanding population.

I wish to thank the trustees for their up-and-coming spirit and cooperation during the past year.

Respectfully submitted,

MARION U. NELSON

AUDITORS' REPORT

We have examined the accounts of the following Town Officers: Selectmen, Town Clerk, Town Treasurer, Tax Collector, Road Agent, Trustees of Trust Funds, Treasurer of Library, and find them correct to the best of our knowledge and belief.

ORSON H. BRAGDON
RAYMOND BAUBLITZ

REPORT OF THE PLANNING BOARD

Your Planning Board has been engaged in two major projects since the last Town Meeting. In March of 1966 the Town voted to authorize and empower the Planning Board to initiate Sub-Division Regulations. On March 31, after the required public meetings the regulations became effective.

If any resident of Amherst wishes to measure the ever increasing growth of the Town, he need only to trace the footsteps of the Planning Board along with the Selectmen, the Road Commissioners and the Road Agent, in the inspection of the numerous sub-divisions and new roads submitted for approval. We, the members of the Planning Board would like to take this opportunity to thank the Selectmen, the Road Commissioners and the Road Agent for the time and valuable advice given to the Board in this new experience. Not to be forgotten are all those people who submitted sub-Division plans for approval, some not without apprehension. We are pleased to report that in every case, even those with problems, a solution satisfactory to both the sub-divider and the Town was found.

Our other major project for 1967 was the drafting of proposed Building Code for this year's Town Meeting. You will remember that in 1966 the Town voted for the

Planning Board to "bring in an article on building code." This project occupied a considerable part of our time this last fall and winter. After some deliberation we decided that the most feasible way to accomplish this directive was to incorporate such a code into the present zoning ordinance. This will avoid duplication and excessive administration. Under this procedure the Zoning Administrator will, in effect be the Building Inspector, the Board of Adjustment will handle appeals, and only one certificate and one fee will be required. In reading the article concerning building regulations, bear in mind that definitions, notices, appeal procedures, appointment of election of officials will be the same as those already in effect for zoning and consequently are not repeated in the article.

There are two other articles on the Warrant pertaining to the Zoning Ordinance. The first will allow two people not of the family to be employed in a home occupation. This is intended to correct an amendment approved last year effecting home occupations. It was generally felt that this part of the amendment was unduly restrictive. The last article pertaining to zoning calls for the enlargement of lot sizes in the rural, residential and transition districts to one and a half acres and frontage on the principal road of access of 200 feet. This article is presented on petition.

We hope that the voters will give these matters serious reflection when they go to voting booths on March 14.

Respectfully submitted,

ROAD COMMISSION REPORT

The Road Commission is pleased to report that under the able supervision of our road agent, Mr. Richard Crocker, all projects planned for 1966 were successfully completed. Several new roads were added to the Towns ever growing list. These were thoroughly inspected by the Selectmen, Road Agent and the Commission before acceptance. We are pleased to report we feel that specifications laid out by the Town for new roads are being met by the Developers.

For the past several months the Commission and the Road Agent have spent considerable time discussing the question of replacing the present Austin Western Grader. This machine is approximately 10 years old and not in too good condition. In our opinion it warrants replacement. Recently we met with the representatives of the principal grader manufacturers in this area. We discussed with them our present equipment and the Town's present and future needs. As a result of these meetings we asked for sealed bids in order to determine costs of a new grader. The bids have been received. It is our recommendation that the Town trade its present grader and purchase a new Austin Western Model #100 six-wheel drive grader as outlined under Article 7 in the Town Warrant.

We have carefully considered all items in the Highway Department budget. We feel that it represents a "hold the line" cost of operation in spite of our ever growing system of roads.

OLIVER MERRILL
RUFUS BROWN

CONSERVATION COMMISSION REPORT

The Amherst Conservation Commission was established March 8, 1966, at Town Meeting. Its purpose is to do what it can to preserve the charm of Amherst and to provide continuity and focus to all the effort being made in this direction. It is empowered to receive and control gifts of money and land and there are State and Federal hook-ups which provide assistance.

Several meetings were held last year at which the members discussed problems, made plans, and reported their activities. Progress was made in some areas. With the consent and approval of the Selectmen and the Planning Board, Amherst was signed up as a cooperator with the Soil Conservation Service using certain tax-title lands. Two of these have been set aside as wildlife areas. These will be developed and labeled starting next summer. Other town owned land is being studied as the possible nucleus of a town forest. Hopefully, donations of forest land will be added to this nucleus. Mapping and indexing of open land was begun, starting with town owned land. The possibility of an outdoor nature and science laboratory in the vicinity of the new school is being studied. This would utilize the marsh area to best advantage and would provide trails, observation posts, and labeling of shrubs and trees for identification purposes. The Parks Department has made available to us landscape shrubs to be used for town beautification. The possibility of a recreational area at Baboosic Lake is being studied but no real progress has been made as yet. The Soil Conservation Service is currently preparing an estimate of the work remaining to provide a detailed soils map of the town. This should aid greatly in future planning.

We are planning to circulate a Survey Form which will make the desires of the Townspeople known so that we may act for the benefit of all.

State officials working with us have met with our

group and discussed the specifics of our projects. Members of our Conservation Commission have attended meetings at Milford and Concord which were concerned with the problems associated with the rapid population growth of New Hampshire.

We want to express our appreciation for the support we have had from the Selectment, the Planning Board, and the Townspeople. The various County, State, and Federal officials we have worked with have been very helpful. Our special thanks go to Barbara Landry who has given us so much of her time.

We are particularly interested in obtaining land to be used for recreation and conservation purposes. Anyone interested in donating land or money please contact one of the members listed below.

Respectfully,

NEIL MANGOLD, Chairman

SELECTMEN'S NARRATIVE

As is customary at the close of a year, we review the past few months with a view of advising our citizens of the condition of the Town.

This year has been one of major accomplishment for the Town, though many problems have developed. We have now available to us two valuable tools for the ever increasing task of assessing property. A complete listing of all property was made up for us by United Appraisal and is discussed more fully elsewhere. The Tax Map which locates all parcels of land will prove invaluable over the years. Though errors are bound to be present by the nature of the jobs, and in many cases we are not in complete agreement with the decisions arrived at, we feel that the work has been conscientiously undertaken and completed. We, of course, want to make any corrections necessary in either area and urge you to bring them to our attention.

We are approaching the new appraisal year when the responsibilities of reviewing the Town again become ours, with eagerness. Each of us feel the challenge of keeping the Town headed in the proper direction. We realize fully that the use of a volume of cost data in assessing will require long hours of careful study, but we hope sincerely that we will be able to adequately undertake this most important part of our job.

The Town, pursuant to a vote, has sold the property known as the Winslow Lot to Norman Jones, Inc. It is our hope that shortly this sale will result in a considerable increase in our total assessed valuation. The fact that residential Real Estate must bear the tax load has never been more evident than in this year when a substantial increase in expenditures, plus a revaluation, has caused great increases in the amounts paid by many of our citizens. We continue to hope that Busi-

ness will locate in Town and reduce in some measure the individual load of each citizen.

Some painting and minor repair work was undertaken at the Town Hall. Shades were added to the auditorium. We recognize the need for continuing our policy of making necessary repairs to the building. In this area we are undertaking in the spring the replacement of the coving.

After some careful study, it was the Board's decision to ask the Road Agent to mark and maintain the fire right-of-way at Baboosic. This, at the moment, is the only right-of-way we have had surveyed.

In the fall we perambulated the Mont Vernon town line as required by law. In 1967 we will do Merrimack, Hollis and New Boston. This is a revealing job and took many hours of our time, but each bound was found and carefully re-marked.

In looking over the past year, we feel we must again point out that the expenses of operating the Town increase as our population grows. The tax load works a decided hardship on certain members of our population. We are faced yearly with uncertain appropriations for Town Welfare and Old Age Assistance, neither of which we can control. The costs of printing and postage continue to climb due to increased numbers of people. Every reasonable effort is made to hold the expenses to a minimum but the ultimate cost of both the Town and the Schools and the resultant tax bill rests directly with each one of you. As your elected officers we disburse the monies as directed by the vote of our citizens. We urge you to carefully consider the individual reports printed herewith and the requests from each of the departments. It is only with the thoughtful action of an aroused community that Amherst can continue to grow.

AMHERST VILLAGE DISTRICT WARRANT

The State of New Hampshire

To the inhabitants of the Town of Amherst, in the
County of Hillsborough in said State, qualified to
vote in District Affairs:

You are hereby notified to meet at the Town Hall
in said Amherst, on Friday the 17th day of March next,
at eight o'clock in the afternoon to act upon the follow-
ing subjects:

1. To choose all necessary District Officers for the
ensuing year.
2. To raise such sums of money as may be necessary
to defray town charges for the ensuing year and make
appropriations of the same.
3. To see if the District will vote to transfer into
Capital Reserve \$1200.00 from cash surplus remaining
at the end of the fiscal year.
4. To transact any other business which may legally
come before said meeting.

Given under our hands and seals this 25th day of
February 1967.

RUFUS I. BROWN,
CREELEY S. BUCHANAN,
CHESTER A. AKESON,
Commissioners of Amherst Village District.

A true copy of Warrant — Attest:

RUFUS I. BROWN,
CREELEY S. BUCHANAN,
CHESTER A. AKESON,
Commissioners of Amherst Village District.

AMHERST VILLAGE DISTRICT

Your Commissioners are pleased to report that the District is now providing water to 205 users.

Repayment of another \$6000.00 in principal has reduced the District indebtedness to \$71,000.00. Adequate reserves are being built up to provide for repairs that might be necessary.

We regret the loss of one of our Commissioners, Admiral William C. Vose. He has been so helpful to our District over the years, we shall miss him.

CREELEY S. BUCHANAN,
RUFUS I. BROWN,
CHESTER A. AKESON,
Commissioners.

SYNOPOSIS OF TOWN MEETING

March 8, 1966

Acting under Warrant for Town Meeting, polls opened at 10 a. m. by the Moderator M. A. Wight, Jr.

Article 1 — Following officers were elected: J. Merrill Hines, Selectman; Catherine A. Kruger, Town Clerk; Barbara H. Landry, Tax Collector; Catherine A. Kruger, Treasurer; Richard G. Crocker, Highway Agent; Chester B. McGrath, Jr., Trustee of Trust Funds; E. Raymond Baublitz and Orson H. Bragdon, Auditors; E. Daniel Johnson and Elizabeth M. Wight, Library Trustees for three years; Francis Coan, Library Trustee for one year; Jean Chase, Library Trustee for two years; Adam Young, Board of Adjustment for five years.

Article 2 — Motion authorizing Selectmen and Treasurer to borrow money in anticipation of taxes adopted.

Article 3 — Moved to discontinue the practice of allowing discount on taxes. Adopted.

Article 4 — Voted to raise \$1000 to continue plan started in 1956 for improvement of roads. Adopted.

Article 5 — Motion to disapprove this article (Blacktop Old Coach Lane) voted and carried.

Article 6 — Voted to blacktop Wilkins Road and raise and appropriate \$1600. Adopted.

Article 6A — Voted to raise and appropriate \$104,321.31 with following changes and additions: increase Civil Defense by \$200; increase Communications Center \$150; and increase for Selectmen \$250 each; \$500 for Town Officers' expenses in order to give Barbara Landry an additional \$500; increase Tree Care and Blister Rust by \$500 (this was omitted from budget) bringing final total to \$106,421.31. Motion voted and carried.

Article 7 — Voted to raise and appropriate \$800 to purchase necessary files for Selectmen's Office.

Article 8 — Voted to adopt this article empowering Planning Board to approve plats, showing streets, etc. Motion carried.

Article 9 — Voted to adopt Town Conservation Commission.

Article 10 — Voted to defeat this article and not join the Manchester Metropolitan Regional Agency.

Article 11 — Voted to defeat this article.

Article 12 — Motion to adopt this article for Street Light in front of Library was defeated.

Article 13 — Voted to raise and appropriate \$2440 to extend sidewalk from Sunset Road to land of School District. Adopted.

Article 14 — Vote to raise and appropriate \$1500 for employment of a Recreational Director Adopted.

Article 15 — This article was voted by ballot. Yes 279; No 249. Adopted.

Article 16 — This article was voted by ballot. Yes 269; No 257. Adopted.

Article 17 — This article was voted by ballot. Yes 181; No 350. Defeated.

Article 18 — Voted to raise and appropriate \$1474.56 to make up deficit in the appropriation of new Fire Station. Adopted.

Article 19 — Voted to have Planning Board elected by ballot was ruled out of order. Mrs. Dorothy Davis moved that the Planning Board bring in an Article on a building code at the next Town Meeting. Seconded, voted and carried.

Moved to give Mr. Francis Whaland a vote of thanks on his retirement from the Board of Selectmen.

Voted to give Mr. Richard Smith a vote of thanks on his retirement from the Planning Board.

Mr. Francis Whaland moved to give a rising vote of thanks to the members of the Ways and Means Committee.

Meeting adjourned 10:10 p. m.

IRVING S. SHAUNESY, JR., assistant to
CATHERINE A. KRUGER, Town Clerk

Total Amount of budget to be raise and Appropriated \$115,235.87
for Town expenses.

Vital Statistics of a Town are one of its most important records, not merely for today, but for generations to come. If everyone would see to it that the records of their own families were fully and correctly filled out for Marriage, Birth and Death certificates, it might be of great help in making out the records of today.

I hereby certify that the foregoing returns are correct according to the best of my knowledge.

CATHERINE A. KRUGER, Town Clerk

Note: If you have an R.F.D. mailing address and you live in Amherst, please give your **legal residence** as well as mailing address, especially on birth records.

WARRANT FOR ANNUAL SCHOOL MEETING

The State of New Hampshire

To the Inhabitants of the School district in the town of Amherst qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the Fourteenth day of March 1967, at ten o'clock in the forenoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.

Given under our hands at said Amherst this 19th day of February 1967.

PAUL K. SIMPSON

WARRANT FOR ANNUAL SCHOOL MEETING

The State of New Hampshire

To the Inhabitants of the School district in the town of Amherst qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the tenth day of March 1967, at eight o'clock in the afternoon, to act upon the following subjects:

1. To determine and appoint the salaries of the School Board and Truant officer, and fix the compensation of any other officer or agent of the district.

2. To hear the reports of agents, auditors, committees, or officers chosen, and pass any vote relating thereto.

3. To choose agents, auditors, and committees in relation to any subject embraced in this warrant.

4. To see if the district will authorize the School Board to make application for and receive in the name of the district such advances, grants and aids, or other funds for educational purposes as may now or hereafter be forthcoming from the United States Government or any other state or private agency.

5. **By Petition:** To see if the district will vote to raise and appropriate the sum of \$157,500.00 for the construction and equipping of a multi-purpose room and kitchen, to be added to such sums as have already been appropriated for the construction, equipping and furnishing of a new elementary school facility in the Town of Amherst, and to meet this appropriation, the School Board be authorized to issue \$157,500.00 in bonds, notes or other legal evidence of indebtedness pursuant to the provisions of the Municipal Finance Act, Chapter 33, RSA as amended.

6. To see what sum of money the district will vote to raise and appropriate for the support of schools, for the payment of salaries for school district officials and agents, and for payment of the statutory obligations of the district.

7. To see if the district will vote to approve the position of Business Manager for Union No. 40 and accept State Aid for that position.

8. By Petition: To see if the district will vote to raise and appropriate \$2,600.00 to tuition trainable pupils to Milford.

9. To transact any other business which may legally come before said meeting.

Given under our hands at said Amherst this 19th day of February 1967.

AUDITORS' CERTIFICATE

(Required by the State Board of Education from all
State Aided Districts)

This is to certify that we have examined the books, vouchers, bank statements, and other financial records of the treasurer of the School District of Amherst, of which the above is a true summary for the fiscal year ending June 30, 1966, and find them correct in all respects.

ORSON H. BRAGDON,
E. RAYMOND BAUBLITZ,
Auditors

REPORT OF THE SCHOOL BOARD

Once more, we find ourselves at the mid-point of a busy and trying school year. Concentration has shifted from secondary to elementary requirements since Amherst joined hands with Milford in the formation of the Area Plan in 1964.

The Milford school administration has worked diligently to provide the facilities, curriculum, and staff necessary to accommodate the pupils of Amherst. An excellent relationship exists between the two boards resulting in fair and intelligent planning for the benefit of all the children. The boards continue to meet a minimum of four times a year and more often if special attention is warranted.

It is gratifying to see so many Amherst pupils participating in the High School activities and especially the parents taking so much interest. Since the Area School was formed it is significant to note the increase in tempo of the "good old fashioned" school spirit. Our students seem to have a deeper sense of belonging. This can be attributed to the sincere attitude of the Milford Board, staff, and people.

Due to circumstances beyond our control the new Harold Wilkins School was not ready this fall of 1966. The Building Committee, however, has done commendably well in spite of many problems and discouraging set backs.

Although many invitations were expected, only two were received. Seppala and Aho, who constructed the Milford Area addition bid \$539,900 and Blanchard Stebbins bid \$482,187. Unfortunately, however, the auditorium could not be included since these bids were beyond original school study committee estimates. Considering not only the importance of the auditorium to provide food and recreational facilities for the children, but the satisfaction of town hall and adult requirements, the board requested of the Superior Court

a special meeting of the school district to vote approval of the additional funds required. A sum of \$156,000 was asked and refused at meeting by ballot vote in July 1966, by 16 votes. The board appealed once more to the Superior Court on the premise we did not feel this was adequate representation of the entire voting population, since only 237 voters participated out of an approximate potential of 1400. Permission was granted to hold another special meeting in October. This time 654 persons voted NO-282, YES-372, falling short by 60 votes.

The board felt any further delays would jeopardize the availability of classrooms for the fall of 1967. Therefore, construction was begun less the auditorium. Foundations and steel structures are almost complete as is much of the outside brick work. The classrooms will be ready for occupancy in the fall.

Aside from the facility problem, much time has been devoted to staff and curriculum. The board has endeavored to obtain the best possible staff. This cannot be accomplished overnight. However, we believe teachers should be compensated for their performance. Consequently we have raised the starting salary to \$5200 per year in an attempt to attract good teachers. Our evaluation plan of merit increases hopefully will retain the teachers that are doing a more than satisfactory job. Teaching is not an 8 hour day, 5 day a week occupation. It is a profession that requires a great deal of extra effort, devotion and continuing educational development. To encourage this, we have initiated a teacher scholarship program to assist teachers in furthering their education as it will enhance their ability in our classrooms.

We have adopted a policy to review each year the starting salary requirements and adjust in accordance with goals and trends. This will assure Amherst of continuing to be a leader and eliminate periodic major jumps that sorely affect the budget.

We are especially pleased to have acquired the services of Miss Nancy Mauri, through the adoption of Title I financial aid. In conjunction with Mr. Edward Lawton, Teacher Consultant, we are able to provide a program in elementary guidance. This not only is beneficial to each child individually, but helps coordinate the entire curriculum program from grade one to twelve. This will also lessen the transition problems encountered when our sixth graders become seventh graders. Since our new school will be "library" centered, we intend to include in our staff a trained resource technician that can also conduct programs for the gifted child as well as the slow child.

Due to constant growth the budget reflects an increase attributable mainly in the following areas:

	<i>Increase</i>
1. Instruction	49,000
2. Supplies	2,100
3. Plant operation	2,400
4. Transportation	3,700
5. Tuition	58,000
6. Miscellaneous	5,000
	<hr/>
	121,200

Last year the budget called for one additional teacher for first grade, but was not hired during the year due to lack of space. We also dropped the resource specialist when the new school slipped schedule. Had we had space this year these personnel would be on the payroll now, consequently, this year's staff increase would be three teachers, an aide, and a clerk. We are sharing French and Reading on a Union 40 basis to broaden our curriculum.

The population chart below will describe the last five year growth plus next year's projection:

Year	Grade						Total	Increase
	1	2	3	4	5	6		
Sept. 61	50	50	50	64	43	52	309	
62	64	44	60	48	63	45	326	17
63	72	56	70	55	63	48	364	38
64	86	76	50	64	55	60	391	27
65	82	84	74	62	56	62	420	29
66	97	87	82	86	63	62	481	61
*67	116	97	92	93	83	63	544	53
Teachers								
Required/Present								
	5/3	4/3	3/3	3/3		5/4	20/16	4
Aides								
Required/Present								
	2/1		3/2			0/1	5/4	1

No teachers were added in 1966 as the seventh grade was transferred to Milford. Considering the aides numerically as 0.5 teachers, our pupil teacher ratio would be 24.1.

The tuition has increased to Milford High primarily due to pupil population. The rate has risen due to operating costs complicated by the absorption of our seventh grade last year.

	Pupils 7-8	Tuition Rate 7-8	Pupils 9-12	Tuition Rate 9-12	Total Tuition	Rental Per Pupil
1966-67	120	380.83	190	479.68	157,000	102.82
1967-68	137	503.16	248	523.13	210,000	104.31

The estimated state averages for next year are: grade 7-8 — \$526 and 9-12 — \$589. Our tuition rates are actually less than was estimated by the Area School Committee in its report of \$525 per pupil originally.

Our sincere gratitude is extended to all those who

have given of their time to make our schools and town a better place in which to learn and live, the Milford Board, the superintendent, principal, staff, teachers, Building Committee, PTA, and many others who have worked and contributed so graciously.

PAUL SIMPSON
ERIC HARE
LELAND GRAY
Amherst School Board

ADMINISTRATION

Superintendent

JOHN A. MURPHY, JR.

Superintendent of Schools

I herewith submit my second annual report as Superintendent of the Union No. 40 public schools. My report will be directed at three areas: 1. An assessment of the past year, 2. Implementations of recommendations made in 1965-66, and 3. Recommendations for future needs.

The 1965-66 school year was rewarding and successful. For this, I owe a great debt of gratitude to an excellent corps of teachers and administrators, to the cooperation and enthusiasm of the parents of this community, to an extremely capable and dedicated central office staff, and to the firm foundation laid by past administrators.

I would be remiss if I did not single out members of the School Board for special commendation. Without their cooperation, understanding, and wisdom, a successful year could not have been realized. The School Board has discharged its responsibilities with admirable courage and determination in the true spirit of dedicated public service.

If I was to single out one outstanding accomplishment during this past year, it would be the opening of the new Milford Area Junior-Senior High School in September of 1966. This school was forced to open under extremely difficult conditions. We were without heat, rooms were partially completed, and the workmen went about their busy schedule of construction in the midst of pupils and teachers busily at the task of education. In spite of the difficulties, our pupils and teachers conducted themselves in an outstanding

manner. Without their full cooperation, school operation would not have been possible. It is also important to note the fine cooperation received from parents in the area towns. My office had only one call to protest the school conditions during this period. You, the parents, are to be commended for your patience and support.

The new school is now substantially completed and the people can be well assured that this building is the product of quality construction. You have a school that you can be proud of. The library facilities are recognized as the finest in the state. The planning and design are a tribute to a hard working area committee, school building committee and School Board. These people spent long hours overseeing the completion of this project, and their dedication to the task has borne quality results.

This year, for the sake of administrative efficiency, we have reorganized the staff at the Area School. Rather than continue with two principals, we have appointed Mr. Corson principal of the Area School with complete administrative authority. Mr. Buck has been appointed Curriculum Director with authority in the area of curriculum research. Mr. Desmarais has been appointed vice-principal and functions in the area of pupil discipline, extra curricula activities and general plant management. These three men have done a remarkable job organizing their staff and guiding the program at the Area School.

The Junior High School building was put to use during this past year. Supervisory Union offices have been moved into this building and occupy four classrooms as office space and one room for conference purposes. The gymnasium has been used by the Special Class and the Jacques School pupils. It was necessary to move one third grade from the Garden Street School to the Annex due to larger primary grade enrollments.

An equally rewarding experience was to see the

completion of plans for a new elementary school in the Town of Amherst. The building, which is now under construction, will represent the careful planning of a dedicated group of men who labored long hours to plan the State's first library-centered elementary school. The building will be ready for occupancy in September of 1967.

This year also marked initiation of a special study committee to examine the long range needs of the Milford schools. A similar committee is scheduled to begin operation in Mont Vernon in early spring of 1967. As is becoming more evident each day, the southeastern corner of New Hampshire is expanding rapidly in population, and the foresight shown by citizens in our community to plan for long range educational needs is truly rewarding.

Mont Vernon has continued to provide a quality program under the very capable direction of Mrs. Clark. Unfortunately, Mrs. Clark has decided to culminate her career in education in 1967. Mrs. Clark will be missed by all who have been fortunate enough to have worked with her. Retiring with Mrs. Clark will be Mrs. Scully, our most capable first grade teacher. Filling these two positions with equally competent personnel will be one of the greatest challenges I have faced as Superintendent in this district. I extend best wishes to Mrs. Clark and Mrs. Scully for a well deserved and enjoyable retirement.

Mont Vernon has been plagued with space problems this year. We have had to divide the grade one-two combination and have hired an additional teacher for grade two. By doing this, we have moved into the former work room and now are utilizing the building 100%. Projection studies show that the present facilities will not be adequate for more than one or two years.

This year has been a very successful one for Brookline in terms of educational growth. We have been able

to concentrate on the immediate needs of the elementary program and have made significant improvements at all levels. Among the most significant is a modified team approach to instruction in grades four, five and six, and the addition of physical education to the upper elementary program.

The Town of Brookline has also embarked on a planning program and their committee will present to the townspeople, plans for a four or six room addition to the present elementary facilities. Brookline, like other communities, is faced with rapid growth. At present, classes are being conducted in the basement of Daniels Academy and two sections meet in the all-purpose room of the Elementary School. I hope the the citizens of Brookline will act favorably to extend the facilities at the Elementary level and allow growth in the quality of educational offerings.

The Hollis School Board appointed a special study committee in 1966 to examine their educational needs and this completed the cycle for the Union 40 schools. When Mont Vernon begins their study in March, we will have 100% activity in the area of educational planning. Hollis, like each community, is plagued with growth problems and, like each other town, they are getting ready in advance. The Hollis committee will be making recommendations for additions at both the Elementary and Secondary schools. The projections of the Hollis Study Committee indicate a marked population increase in the years ahead and a need for continued planning for school space.

The residents of Hollis should be extremely proud of their efforts to support education. This effort has been one of the greatest in the State of New Hampshire and it has provided one of the state's most highly regarded programs. I would like to pay special tribute to the Hollis principals for their dedication to education and for the quality job done by them. It is a pleasure

to work with administrators like Mrs. Jacques and Mr. Thorburn. Hollis is fortunate to have them on the staff.

Another event worthy of consideration was the large number of vacancies filled before September of this year. I have made a special effort to observe our new teachers and I take great pride in reporting that this is the finest group of young people we could ever hope to have on our staff. I am sure that the citizens of the community have been equally impressed with the quality of these new teachers. Our new members, together with our very competent veteran staff, have allowed us to continue forward in our quest for quality education in Union No. 40.

As I completed my first year as Superintendent of Schools, I was most impressed with the remarkable job done by the laymen of our community. Your dedicated contributions have placed education where it is. You can be proud of your accomplishments. I hope that each member of our community, who has contributed, will accept this message as my sincere note of accomplishments of the past year. You have made the greatest contributions; your time and energy and the results have already begun to pay big dividends.

Some citizens may not be in agreement with my assessment of the progress in our schools. They may feel that the schools are not progressing at a rate that is commensurate with the community's potential. If this is the case, I urge you to please bring your criticism to us. Too often, our critics are vocal only when out of range of school officials. We welcome constructive criticism and solicit your comments on education.

We have no monopoly on wisdom. You, the citizen, should demand good reasons for the actions we advocate and when you doubt our actions, please come forward and express your opinion. By the same token, I also urge you to speak up for education. You must let your School Board know that you support excellence, and

that you are willing to pay for it with tax dollars, with votes and with service. It is not the educators who are in charge of your schools, but you the citizens. You take charge every time you attend the School District Meeting and vote on issues, and everytime you grasp or neglect an opportunity for planning and financing education. This office is open to the people of our community, and I welcome your comments, positive or negative. I want to work with you to stress fine schools and excellence in general. I hope you will agree that our children deserve the best.

Review of Recommendations

With the assistance of Federal funds, two of the recommendations made a year ago have been implemented. In April of 1966, we organized a Curriculum Council designed to improve coordination of curriculum — one through twelve. The council is composed of twenty-three faculty members and their primary objectives are to: 1. Coordinate curriculum by subject area in grades one through twelve, 2. An interdisciplinary coordination of curriculum, 3. Improvement of communication between faculty, administration and school board, 4. Improvement of communication between the Union 40 schools for the development of a meaningful program. The council will be responsible for developing complete course guidelines in each of the major subject areas. This project is designed for completion in a three year period.

The second recommendation that was made a year ago was to establish an elementary guidance program. Again, with the assistance of Federal funds, we were able to hire Miss Nancy Mauri as an elementary counselor to serve the Union 40 towns. Miss Mauri has been assigned a tremendous task and has carried on her duties in a most commendable manner. In addition to conducting student conferences, Miss Mauri is available for parent conferences Thursday evenings of each

week from 7 in the evening until 10. We are also in the process of developing a better testing and test evaluation program through the elementary guidance office.

The third recommendation made a year ago was the implementation of a kindergarten program for the area towns. Unfortunately, due to the increased costs and rising number of pupils in the towns, this recommendation has had to take a lower order of priority in our program development.

Future Needs

The basic test that we must apply to our schools is "Does the growth sought in pupils coincide with the functions established for the schools". The schools of our community are effective if they are accomplishing the objectives as stated in their philosophy, i.e. the schools are dedicated to educating every child to the maximum of his potential. In assessing our current program, we can say that the schools are doing a most commendable job of caring for the majority of our pupils. We are neglecting a few at the extremes, however, and recommendations are being made to care for these deficiencies. We are presently offering an effective program for the retarded. We have, however, another group of youngsters that is presently being cared for in private facilities due to lack of public school concern for their needs. These youngsters, defined as trainable, are as entitled to learning experiences as any other member of our community, and for this reason, I recommend the adoption of a program for their education in Milford. The Milford school could serve as a base for receiving tuition pupils from other districts. A program of this type should be no more costly to Milford residents than tuitioning their children to other towns. Each sending district will contribute to the total operating costs of the program. At the other end of the spectrum, we have our gifted children. We are attempt-

ing to accelerate their program through grouping practices at the elementary and secondary schools. There are, however, a percentage of pupils in each community who will benefit from a special program designed for the creative child. Next year, I am recommending a pilot program for the Town of Amherst. If accepted by the district, this program will serve as a pilot project for the State of New Hampshire, and together with our trainable program in Milford, will give us an opportunity to assess full implementation of our philosophy of education.

As stated earlier, we are in an area of rapid population growth and must continue to assess our needs. Each town is presently studying future population impact on education. I hesitate to make recommendations pending the findings of these studies, but feel that thought should be given in the Milford area complex to the consolidation of elementary programs at the intermediate level, grades five through eight. The construction of such a central facility would provide an emergency valve for elementary expansion in each community and relieve possible overcrowded conditions at the present Junior-Senior High School. Hollis is located in an area that could be expanded to include Brookline and other non-district towns at the 7-12 level.

We are also faced with a need of additional staff members at both elementary and secondary schools to keep the pupil-teacher ratio at an acceptable level. This year's budget will request additional staff members in all of the area towns to maintain this ratio. The remainder of my recommendations will be found incorporated in the reports of the Teacher Consultant and the principals. I hope that careful consideration will be given to each of these recommendations.

I would like to pay tribute to those teachers who will be retiring at the end of the 1966-67 school year. They are: Mrs. Margaret Clark and Mrs. Elizabeth Scully in

Mont Vernon, and Mrs. Hazel Tonella, Miss Elsie Wheeler, Miss Doris Rowell and Miss Mary McGettigan in Milford. These teachers have served our community and children faithfully for the past years. I join the entire faculty and community in thanking them for contributions to this field.

In conclusion, I would like to pay tribute to the memory of Mabel Connolly who died during the 1965-66 academic year. Miss Connolly had planned to retire from her Teacher Consultant position in June of 1966, but unfortunately was taken from us in March. Miss Connolly was a dedicated and devoted member of the Union 40 staff. As Teacher Consultant, Miss Connolly brought new life to the schools. Through her efforts, the elementary program reached an all time high. Miss Connolly possessed, to an unusual degree, the personal attributes and professional requirements of a great teacher and administrator. She established a standard of quality to guide and inspire all who will be associated with the Union 40 schools.

TEACHER CONSULTANT

This constitutes my first annual report as Teacher Consultant for Union No. 40 schools. Since assuming the position in August, 1966, I have found it to be both an exciting challenge and a rewarding experience. Considering the growth potential of the area and the constantly increasing educational needs and desires of our children and our society, there is every reason to expect more exciting and demanding challenges, with unlimited opportunity for rewarding experiences in the future.

This report is intended to explore the requirements of the position, focus upon the challenges and suggest the potential benefits to Union No. 40 communities re-

sulting from meeting these challenges. To accomplish these purposes, this report is organized in sections as follows:

1. Details of Position
2. Impressions
3. Action Initiated
4. Recommendations
5. Concluding Remarks

Details of Position:

Basic responsibilities of the position remain unchanged from the past year. Emphasis on various responsibilities has changed, however. The addition of a full time elementary guidance counselor has shifted much of the direct involvement in details of guidance, testing, home and community work to that office. General supervision of the work of the guidance counselor has become the direct responsibility of the teacher consultant. Curriculum studies, help to teachers to secure materials, suggestions for use of materials, organizations of in-service programs and assorted research projects, all designed to aid instructors and help improve instruction occupy a considerable percentage of the teacher consultant's time. Directly related to these duties is the continuing responsibility of cooperating with the secondary principals to hasten articulation of curriculum from grades one through twelve. Also, much more time is to be devoted to assisting in the recruitment of elementary level teachers by this office.

Finally, the most significant change in emphasis has been the establishment of supervisory and evaluation techniques which will help teachers in classroom situations and also rate them for merit pay purposes. The number of visits to each classroom for these purposes now represents the greatest time requirement of this office.

Reporting, advising and recommending on coordination and supervision of the curriculum and the in-

structional program is done constantly through the superintendent to the various boards of education.

Impressions:

The general quality and dedication of staff members, administration and members of the various boards of education represent encouraging strength in planning and implementing the instructional program. An apparently strong foundation laid by previous staff, administration and board members contributes immeasurably to the present status of the instructional program in Union No. 40 schools.

There have been several encouraging, significant innovations during the past year. The forementioned addition of a full time guidance counselor was one. Another was the establishment of a curriculum council, comprised of and directed by Union No. 40 teachers which has already resulted in identification of curriculum problems and implementation of steps to improve our programs. Also important was the establishment of a merit evaluation pay program for teachers intended to reconcile payment of salaries with performance and to encourage individual initiative, instructional improvement and the recruitment and retention of superior teachers. These and other efforts indicate an awareness of and concern for providing a quality program for Union No. 40 children.

Action Initiated:

Since the beginning of the present school year, a number of programs and/or steps have been initiated by principals, by this office, or through mutual cooperation, which have been intended to help strengthen the instructional program and to assist teachers in improving instructional techniques and in evaluating new materials and programs.

Among these are the following:

1. Initial steps to coordinating curriculum pro-

grams from grade one through twelve. (In conjunction with the curriculum council and secondary principals.)

2. Team teaching organization (Amherst-Grade 4) Departmentalization (Grade 4-6 Brookline).

3. Revised readiness testing program.

4. Adjusted achievement and I.Q. testing programs.

5. In-Service programs for teachers including consultant service in mathematics, reading and language arts, and provision for scheduling teachers from one union town for visits in classrooms in another union town to derive benefits from observing different, effective teaching techniques and exchanging ideas.

6. Provision for more extensive purchase of visual-aid materials.

7. Establishment of a teacher-resource library at the Superintendent's office.

8. An independent reading program (apart from the regular program, but intended to complement it) in Brookline grade six.

9. Revisions in the penmanship program.

10. Initial steps in each of the following:

a. An evaluation of school program project in conjunction with the State Education Department in Amherst.

b. A study of permanent record cards for improvement upon present system.

c. A study of the system of grouping children for instruction purposes.

d. Orientation program for substitute teachers.

Recommendations:

The position of teacher consultant offers a unique vantage point for involvement in and evaluation of the total school program. It is obvious that the consultant has a fundamental responsibility to make recommendations related to the educational program. To identify

and overlook problems would be a serious neglect of the interests of the children, staff members and taxpayers of the Union No. 40 towns. After careful, studied consideration, the following recommendations are offered:

1. Addition of specialists in reading at the elementary and secondary level. Eventual addition of consultants in other major subject areas for assistance to staff members rather than for evaluation purposes.

2. Reduction of teacher-pupil ratio to 25 to 1 generally and 20 to 1 at the grade one level. (Large group instruction organization excepted). This recommendation is not simply opinion; it is based upon consideration of the Union programs and research data.

3. Consideration of a Middle School Program for Area towns and as eventual Cooperative School Program from grades five through twelve.

4. Consideration of a kindergarten program throughout the Union.

5. Addition of a full time aide in Special Class. Initiation of a program for trainable children.

6. Consideration of a full time physical education instructor at the elementary level. (Obvious building facility plan adjustments necessary to implementation.)

7. Addition of the position of Assistant Superintendent for Instruction with retention of the position of Teacher Consultant. This is necessary to more effective implementation of merit pay evaluation and general supervision.

Concluding Remarks:

This is a lengthy report, of necessity. Re-directed emphasis and expanding requirements resulting from demands of a modern society on the educational program help to make it so. This, in my best judgement, represents a true assessment of the present situation and immediately apparent future needs. The educational program of this Union has many strengths, but

much is yet to be accomplished if we are simply to sustain what is good and improve upon weaknesses. Assuming a desired quality beyond the status quo, however, this report considers necessary steps to accomplishing minimal standards and offers programs for progress beyond that which is minimal. This office will constantly work towards quality in the interest of progress throughout Union No. 40.

EDWARD J. LAWTON
Teacher Consultant

MILFORD AREA JUNIOR-SENIOR HIGH SCHOOL

On September 7th, we opened our doors to approximately 1110 students. Once again we are a combined Junior-Senior High School. Our problems were many as the building was only two-thirds completed. To gain the necessary operating space, we allotted every conceivable area for classes. We had no clocks or bell systems, we had no heat, and in most cases, no light. We did, however, have a student body and a faculty who, through cooperation and hard work, made the beginning weeks successful ones. For this, we the administration, want to thank them.

That the United States is a nation on the move is attested to by the fact that we have a total registration now of 1138 pupils. In addition to the many pupils registered during the summer, we had, on opening day, 50 students that were entirely new and unknown to us. Since opening day we have had 42 new pupils.

At this writing, the school is just about completed, and is one of the finest in the State of New Hampshire. In keeping with today's educational practices, there is incorporated in this new addition a library, second to

none in New Hampshire. This will enable us to carry out our plans for becoming a library-centered school. Other advantages of the new addition are a lecture room with a capacity of 100 pupils to carry out our plans for large-group instruction and team teaching; a 600 seat Cafetorium for lunch purposes, dramatics, and for all large gatherings, leaving our gymnasium free for its intended purpose; a small lecture room for demonstration purposes, well-equipped suites of rooms for all disciplines, and well-designed and functional rooms for Administration and Guidance. All of this, plus a beautifully landscaped exterior, give Milford a secondary school of which we can be exceptionally proud.

This year we have twenty-six new teachers on our staff. Some are replacing teachers that have moved on to other schools, and some are to meet our increased enrollment.

Enrollment growth in our schools has been very rapid. To illustrate this point, in 1957 Milford graduated 48 pupils. Ten years later in 1967, we have a staff of fifty-nine, and the senior class has 150 members. Our new school was planned to reach an enrollment of 1200 pupils over a ten year period.

Several of our new teachers have prior teaching experience in other school systems. Some of our new teachers are in their first year of teaching. We feel very fortunate in the staff we have acquired for this year. They are performing at a very commendable level. It is most unusual to have so many new teachers, and have them all get off to a good start. Our anticipated enrollment for the next school year is such that we must again ask for additional teachers. This is necessary if we are to continue with our excellent program.

In the area of curriculum, there has been, and will continue to be, much activity. Some of our courses are

undergoing an internal change to keep them abreast of the best current knowledge. Changes are very rapid today, and we must strive to keep up with what is current so our boys and girls will be prepared to meet the world in which they will live. The various departments within the school, are meeting weekly to discuss better methods for teaching what must be taught. They work together to effect changes that have to be made. The spirit of cooperation on the part of teachers has been excellent. Without it, we could not do the task cut out for us.

Some new courses of study have been started to meet the needs of our pupils. One of these courses is the new Food Services program. This course is a vocational course, designed to meet the needs of youngsters who would like to work or go on to further study in the culinary arts field. Another new course is entitled "Vocational Mechanical Drawing." This course is designed to help those boys or girls that would like to enter the field of Drafting. Both of these courses are two year courses.

At the present time, we are studying changes in our Social Studies curriculum. We feel that the offerings in this area are much too limited. We would like to provide the opportunity for some in-depth study in the field of Social Studies. The English department is examining the new field of linguistics. Through the efforts of the Union 40, Curriculum Council during the second semester of this school year, our English teachers and district Elementary teachers are able to take an orientation course in the field of linguistics. In the field of Mathematics, our Math department is studying the possibility of implementing a course entitled Math I. This course will be followed by a course entitled Math II. These courses would replace the present General Math course. It would permit a youngster in a two year period, working at a much slower rate

than at the present time, to have the equivalent of one year of Algebra, as well as much of the material that is now covered in the General Math course. A course of this type would meet the needs of several of our youngsters who progress at a rather slow rate. There is also discussion in the area of Computer Mathematics.

It is well that we have a Study Committee working on future plans for housing the pupils of the Milford area. A look at projected figures gives one considerable food for thought. Keeping in mind that the Area school is designed to house 1200 pupils at 90% utilization, I submit the following projection:

For the year 1966-67, we at this writing, have the following enrollments:

	Grade 7	206
	Grade 8	210
	Grade 9	176
	Grade 10	189
	Grade 11	144
	Grade 12	146
	Specials	23
	<hr/>	
	Total	1094
Projected	to the year 1967-68:	
	Grade 7	200
	Grade 8	203
	Grade 9	209
	Grade 10	181
	Grade 11	193
	Grade 12	145
	Specials	23
	<hr/>	
	Total	1154

If by chance, we have, as we did this year, the 50 new and unknown pupils, we would be at capacity next year.

Once again, the number of pupils going on to post-

secondary schools increased from last year's 57% to a new high of 65%. 30% of these went on to four year colleges, and another 35% went on to Junior Colleges, and other types of educational endeavors. All of our vocationally trained pupils found employment or went into the various services. We expect that with our increased Vocational-Training programs, we will have many more trained workers for the labor market in future years.

On behalf of the Administration, faculty and pupils, we want to thank you, the citizens of Milford and Amherst, for your continued interest in providing quality education for the youth of the area. We want to thank the school personnel, local organizations and individuals for the many services and kindnesses shown us throughout the school year.

Respectfully submitted,
CHESTER S. BUCK
GEORGE H. CORSON

REPORT OF THE AMHERST PRINCIPAL

It is my pleasure to present my third annual report as principal of the Amherst Elementary Schools.

This year I would like to summarize our program:

Reading:

Amherst Schools use a basic sight to phonics approach incorporating diagnostic teaching in light of standardized test administration and teacher judgment. The child is grouped on a non graded approach - that is, he is expected and encouraged to read where he is capable of working. This year's school budget and the Title II monies have enabled us to add a great number of books to our library. This does much to encourage independent reading. A committee of teachers has been working on our reading program to develop

a diagnostic evaluation tool to enable us to better implement diagnostic teaching.

Math:

Our Modern Math Program has benefited greatly by having Miss Deborah Stone of the University of New Hampshire work with the teachers on an inservice program. Miss Stone had the teachers identify their needs - 1, Demonstration teaching; 2, Teacher and student resources and tools; 3, diagnosis of difficulty. She has proceeded to meet these needs in her five visits to our schools through observation and conferences with individual teachers and administrators, demonstration lessons and teachers, meetings after school, to share ideas, problems, and techniques.

Social Studies:

Our multi discipline approach involving multi text books and sources has begun to show evidence of growth and understanding by the children and the school as a whole. Children are becoming more involved with the process than with the results. In as much as our aim is to teach them how to find the answers and make value judgments in light of past experience, the new Library Resource Center will go a long way to facilitate meeting these needs.

Science:

The Union No. 40 Curriculum Council is currently working in this area and we feel that they will probably arrive at a syllabus of recommendations that will lead us to a multi text approach in science. Mr. Hall has enlivened our fifth and sixth grades with the Educational Service Program. Mr. Hall worked for one week at their workshop. He also provides live science experiences for grades one, two, and three on a regular scheduled basis to continue last year's program.

Language Arts:

The big activity in the Language Arts area has been

Mrs. Shaw, Mrs. Jamison, Mrs. Kittredge, and Miss Craig's involvement in a linguistics program. The program has a core of fine literature. This core has the students and the teachers as highly motivated as the grammar portion. We plan to do an evaluation of this program to determine the feasibility of extending it. In January, an inservice program will be conducted in Milford. We have twelve out of thirteen Language Arts teachers taking the course. We have also had demonstration lessons and workshops sponsored by the Harcourt, Brace, & World Book Company relative to the program.

Our spelling program is designed to teach spelling rules and application to lists. Tailor made to each child's ability in spelling ability precludes a child from working on a level that is too easy or too difficult for him.

French is taught using the T.V. program for grade four and Mrs. Conway is giving fifteen minute daily lessons to grade five and six. This is a tremendous asset to the program; however, this imposes sacrifice on the part of the teachers involved in making the program work. We really need additional staff to do the job which is well worth doing.

Miss Janet Hutchinson, team leader for grade one again worked with Mrs. Conway and Mrs. Eastman. New additions to the first grade staff are Mrs. Shirley McEnnis, assistant teacher and Mrs. Muriel Wheeler, teacher aide. These additions were a great help in providing for the children's needs to the unanticipated number received in September.

Mrs. Sally Greenhalgh, team leader, Mrs. Martha Hapgood, and Miss Audrey Silverman continued the team operation as did Mrs. Elma Kittredge, Mrs. Elizabeth Jamison, and Mrs. Mary McGee. This program was somewhat curtailed by the physical facilities available - resumption of use of the Clark School by grade

two and the use of the new school by grade three should allow for made flexibility. These grades operated from the Brick School with Mrs. Patricia Duval acting as their aide and secretary in the office.

Mr. William Andrews, team leader for grade four with Mrs. Cynthia Lathrop and Miss Cheryl Craig, introduced team teaching to that grade. Many exciting experiences and learning situations were provided for students and teachers. Mrs. Gladys Faneuf served as their aide.

Grade five and six was staffed with Mrs. Harold Lorenz, Math; Mrs. Elizabeth Shaw, Language Arts; Mrs. Catherine Sullivan, reading; and Mr. Leonard Hall, science.

To summarize, there are many exciting things happening for the boys and girls of Amherst. Team Teaching in grades one, two, three, four, - the use of teacher aides to enable better supervision and better utilization of teachers' professionally trained time, the Sargent Camp experience and Merit pay, which involves an on-going evaluation of teacher performance, the most important aspect of which is the improvement of instruction. Teachers have become stimulated and anxious for help in being shown the way for improved techniques and methods. Their response to the pre-school workshop and inservice programs has offered us evidence of their enthusiasm.

My work this year has been stimulating and rewarding. Work with the Building Committee, enthusiastic administrators, teachers, parents and students has given me new areas for growth. The new building promises even a greater challenge to give Amherst boys and girls the best opportunities available to prepare themselves for future citizenship.

Respectfully submitted,

F. EDWARD HOOPER, Principal

Grade 10	46		

**SYNOPSIS OF
AMHERST SCHOOL DISTRICT MEETING
March 4, 1966**

The meeting was called to order by the Moderator, Mr. Creeley Buchanan, at 8:05 P.M. A brief prayer was offered by the Reverend Anderson. The Moderator called on the candidates for School Board for a brief word. A minute of silence was observed for Miss Connolly.

Article 1. Mr. Hare moved that since the items were carried in the budget this article be passed. Carried.

Article 2. Mr. Simpson moved that the reports be accepted as printed in the Annual Report. Carried.

Article 3. Mr. Ramsey moved that the Town auditors serve as school auditors. Carried.

Article 4. Mr. Simpson moved the district accept the recommendations of the Way and Means Committee that we approve Article 4 provided the School District does not become obligated to the Federal Government. Carried.

Article 5. Mr. Ramsey discussed in great detail the items of the budget. Included in his discussion was the fact that the Board was removing from its request to appropriation for a Resource Teacher. Mr. Lindabury moved that the \$20,000 in anticipated revenue from interest on the school building fund be used to reduce the 1300 series item, debt service, in the 1966 budget. Carried. Mr. Wight moved the meeting accept the further recommendation of the Ways and Means Committee to reduce the budget by an additional \$11,000. A standing vote was ordered by the Moderator—34 voted for Mr. Wight's motion and 74 against. The motion lost.

Mr. Ramsey moved that the district raise and appropriate the sum of \$476,041.29 for the support of the schools. Seconded.

Mr. Clough moved to amend the motion before the house by deleting the \$2,900.00 item for workshop. A standing vote was again taken. 44 voted for the amendment and 54 against. Motion lost.

The vote on the article was called and the article was moved by Mr. Ramsey. Carried.

Article 6. The Ways and Means Committee moved disapproval of this article feeling that the Town was not able to undertake the support of a public kindergarten. Several persons spoke for the article which asked for a study committee. It was pointed out that a School Study Committee exists and the function properly of this committee would be to undertake the study should the School Board so instruct it. The vote on the article was to disapprove the article.

Article 7. The Ways and Means Committee moved that the School Board be permitted to extend unanticipated receipts. Carried.

Article 8. The Ways and Means Committee moved that the School Board be given the power to accept Federal Aid under Title I provided that the district does not become obligated in any manner to state or federal governments. Carried.

Article 9. Mr. Lawrence Carlsmith gave a brief report on the new school.

Mrs. Nellie Holmes moved a resolution of sympathy be sent to the family of Miss Connolly. Carried.

Mr. Howard Russell moved a rising vote of thanks to David Ramsey for his work on the School Board. Carried.

The Meeting adjourned at 11:05 P.M.

Respectively submitted,

BARBARA LANDRY, Clerk

**SYNOPSIS OF
SCHOOL DISTRICT MEETING
March 8, 1966**

The meeting was opened by the clerk for the purpose of voting at 10:00 A.M. 524 ballots were cast.

For Moderator: Mr. Creeley Buchanan 463

For School Board:

Mr. Alfred Byrnes 122

Mr. Henry Crook 38

Mr. Leland Gray, Jr. 184

Mrs. Anne Hopkins 83

Mrs. Eleanor McDowell 83

Elected: Leland Gray, Jr.

For School Clerk:

Mrs. Shirley Copeland 318

Mrs. Rachel McDowell 148

Elected: Mrs. Shirley Copeland

For School Treasurer:

Mrs. Shirley Copeland 285

Mrs. Rachel McDowell 170

Elected: Mrs. Shirley Copeland

Meeting was closed at 7:00 P.M.

Respectively submitted,
BARBARA LANDRY, Clerk

**SYNOPSIS OF SPECIAL SCHOOL MEETING
July 26, 1966**

The meeting was called to order by the Moderator, Mr. Creeley Buchanan at 8:05 P. M. Invocation was asked by Mr. Harold Wilkins, Jr. The Moderator read the warrant. Article I: To see if the District will vote to raise and appropriate the sum of \$156,000.00 to be added to such sums as have already been appropriated for the construction, equipping and furnishing a new

elementary school facility in the Town of Amherst and to meet this appropriation, the School Board be authorized to issue \$156,000.00 in bonds, notes or other legal evidence of indebtedness pursuant to the provisions of the Municipal Finance Act, Chapter 33, R.S.A. as amended. Mr. Alan Carlsmith, Chairman of School Building Committee, moved that the warrant be accepted as published. The motion carried.

A detailed report with the facts and findings was given to Amherst citizens by Mr. Carlsmith. Discussion followed. A rising vote of thanks was given the School Building Committee for a job well done. So voted.

The meeting was recessed to vote on the warrant. Two hundred thirty-seven persons voted; 142 votes were affirmative, 95 negative. Since 158 votes were necessary to carry, the District lost the article.

The meeting was adjourned at 10:05 P. M.

SHIRLEY V. COPELAND, Clerk

SYNOPSIS OF SPECIAL SCHOOL MEETING October 22, 1966

The meeting was called to order at 8:00 A. M. by Mr. Creeley Buchanan, Moderator. Invocation was given followed by the pledge of allegiance. The warrant was read by the moderator.

Article I: To see if the District will vote to raise and appropriate the sum of \$156,000.00 to be added to such sums as have already been appropriated for the construction, equipping and furnishing a new elementary school facility in the Town of Amherst and to meet this appropriation, the School Board be authorized to issue \$156,000.00 in bonds, notes or other legal evidence of indebtedness pursuant to the provisions of the Municipal Finance Act, Chapter 33, R.S.A. as amended.

Mr. Alan Carlsmith moved the article be accepted as read and the meeting be recessed to vote on the warrant. Seconded.

Voting on the article took place from 8:00 A. M. to 6:00 P. M. Six hundred fifty-four persons voted; 372 votes were affirmative, 282 negative. Since 436 affirmative votes were necessary to carry, the vote was lost.

The meeting was adjourned at 6:30 P. M.

SHIRLEY V. COPELAND, Clerk

PROPERTY APPRAISALS

Pursuant to a vote of the annual Town Meeting held in March, 1965, your Board of Selectmen, after due consideration, retained United Appraisal Co. for the purpose of appraising all taxable real estate within the Town.

The appraisal was based upon classes of construction, unit cost of materials in place and considered such factors as type of foundation, amount of basement, type of flooring, plumbing, heating, age, condition and depreciation, if applicable, etc. Consideration was given to farm buildings first individually with respect to use or adaptability and then as a group, considering what the component parts added to the value of the farm as a unit. Land, forming a part of farm property was divided into classifications such as crop land, orchards, permanent pastures, etc.

Valuation of land, in general, was increased substantially. Factors such as data relative to sales for the period April, 1962 to April, 1966, location, shape, size, topography, etc., were considered. Tax maps, the preparation of which was authorized by vote of the 1964 annual Town Meeting, were an important reference utilized by the appraisal company.

It was intended that each property owner be treated impartially, and your Board feels that this was accomplished. However, it is possible miscalculations were made. If these cases are brought to our attention, we shall gladly make corrections and abate an over-assessment or, of course, make an upward revision if circumstances dictate.

In conjunction with the new appraisal, the assessment percentage was increased from 40% of value to 100% of value. Total valuation of the Town was approximately \$19,000,000 as of April 1966, as compared with about \$14,000,000 in April 1965.

Following is the Inventory as of April 1, 1966.

of
TAXABLE PROPERTY

Town of Amherst, N. H.

April 1, 1966

PROPERTY APPRAISALS

Pursuant to a vote of the annual Town Meeting held in March, 1965, your Board of Selectmen, after due consideration, retained United Appraisal Co. for the purpose of appraising all taxable real estate within the Town.

The appraisal was based upon classes of construction, unit cost of materials in place and considered such factors as type of foundation, amount of basement, type of flooring, plumbing, heating, age, condition and depreciation, if applicable, etc. Consideration was given to farm buildings first individually with respect to use or adaptability and then as a group, considering what the component parts added to the value of the farm as a unit. Land, forming a part of farm property was divided into classifications such as crop land, orchards, permanent pastures, etc.

Valuation of land, in general, was increased substantially. Factors such as data relative to sales for the period April, 1962 to April, 1966, location, shape, size, topography, etc., were considered. Tax maps, the preparation of which was authorized by vote of the 1964 annual Town Meeting, were an important reference utilized by the appraisal company.

It was intended that each property owner be treated impartially, and your Board feels that this was accomplished. However, it is possible miscalculations were made. If these cases are brought to our attention, we shall gladly make corrections and abate an over-assessment or, of course, make an upward revision if circumstances dictate.

In conjunction with the new appraisal, the assessment percentage was increased from 40% of value to 100% of value. Total valuation of the Town was approximately \$19,000,000 as of April 1966, as compared with about \$14,000,000 in April 1965.

Following is the Inventory as of April 1, 1966.
